### Exemplary: Try it first and then decide

The nicest catalogue cannot come close to the feeling of handling a „real“ sample, and being able to assess the quality and design live in 3D. Send for the sample of your choice here. This gives you a chance to fill, test and evaluate which bucket or canister is the „right“ one for you. Simply scan the QR-Code and order online. Your sample is already on its way to your door.
